

TRIED TO BLOW UP A NEW YORK TOWN.

CITIZENS OF ANDOVER GREAT- LY EXCITED.

Big Charge of Dynamite Discharged Under a Big Factory Blowing it to Atoms and Other Similar Outrages Are Feared—Bill Cook Writes a Letter.

BUFFALO, N. Y., Nov. 19.—The isolated town of Andover, in Allegany county, has been treated to an exciting experience in the last three days. Early Friday morning the village was awakened by an explosion which shook the windows in the farm houses all around. The big frame building used by Charles Cockran as a storage warehouse had blown up. There was no fire in it and no oil or explosives were stored there. The building had evidently been torn to pieces by the force of dynamite or some other explosives. At noon carpenters at work on the house of L. G. Van Vleet found a stick of dynamite attached to a half burned fuse under the house, and this confirmed the opinion that dynamite was used on the store house.

A meeting of citizens was held and a committee appointed to discover the perpetrator of the outrage. Yesterday Harrison Bundy went into his barn and found another stick of dynamite and a half burned fuse on the floor. Andover is in a state of terror. The streets are patrolled at night by volunteers and every effort is being made to locate the miscreant. Rewards have been offered but have brought no new evidence.

BILL COOK THREATENS BY LETTER.

United States Attorney Jackson is Warned to Be Quiet.

MUSKOGEE, I. T., Nov. 19.—United States Attorney Jackson has received a letter from Bill Cook threatening to kill him if he makes any further attempt to exterminate the gang. The force of deputies under Deputy United States Marshal McGill, who were equipped by United States Attorney Jackson at his own expense, and the citizens here, are loud in their praise of him. His instructions to the men were to remain in the field until the gang had been either killed or captured. The report that Cherokee Bill was badly wounded in the battle with the deputies has been verified. Cherokee Bill's band, it is said, is surrounded and can only escape by fighting through the deputies' lines.

Robbers Fooled by the Engineer.

VICKSBURG, Miss., Nov. 19.—As the Yazoo and Mississippi Valley express train was leaving Pantherburn station, sixty miles north of this city, at 11 o'clock last night three white men signaled the train to stop, using the switch light for the purpose. Engineer Heiner, suspecting something wrong, kept on at about fifteen miles an hour. The would be robbers, seeing he was not stopping, poured a volley of pistol shots into the cab and train. Fireman George Cole received a flesh wound in the left arm and another shot grazed his temple. The engineer opened the throttle when the shooting began and soon left the robbers behind. Gov. Jackson of Iowa and party, who have been hunting in the Delta, were on the train.

New Baseball League Contemplated.

TERRE HAUTE, Ind., Nov. 19.—Letters have been received asking that a representative of this city be sent to the meeting called for Nashville, Nov. 25, to form the Central Baseball league and the probability is that Terre Haute will be represented. It is proposed to have four cities south of the Ohio river, Memphis, Nashville, Chattanooga and Atlanta. Evansville and Terre Haute are to be two of the northern cities with Springfield and Decatur, Ill., and Fort Wayne, Ind., under consideration.

KILL TWO THOUSAND.

Zeki Pasha, a Turkish Marshal, Massacres Armenians at Sassun.

LONDON, Nov. 19.—A dispatch to the Times from Vienna says that a letter has been received there from Smyrna reporting that Zeki Pasha, a Turkish marshal, with a detachment of Nizams and a field battery, massacred 2,000 Armenians at Sassun. The bodies of the dead were left unburied and their presence has caused an outbreak of cholera. Many Christians are reported to have fled by secret paths across the Russian frontier.

So far there has been no official confirmation of this news, but if it is true it is time the powers share in the responsibility by their failure to enforce article 61 of the Berlin treaty, which imposes on them the duty of seeing that the porte takes measures to protect Armenians. The latter declare that they hope for nothing from Europe, but that they still have confidence in Great Britain. Numerous appeals have been made by the Armenians to the British foreign office. The English government will no doubt be forced to take some action concerning the massacre of Armenians. Politicians may be unwilling, but the people, and especially the non-Conformist churches, will not permit such an outrage to be ignored.

French Take Akapese Stronghold.

PARIS, Nov. 19.—A dispatch from Grand Bassam, Upper Guinea, says the French have captured the stronghold of the Akapese natives without loss. Some of the Akapese warriors apparently killed fifteen negroes at Krinjabo. A French force attacked the natives and killed many of them. The French loss was one killed and many wounded. A French punitive expedition was then sent against the natives and this dispatch shows their mission has been successful.

Poisoned by Eating Cookies.

VANDALIA, Ill., Nov. 19.—There is much excitement in the neighborhood of Shobonier, south of here, over what appears to be wholesale poisoning of Martin Sasse, his son Herman, and their families, ten in all, last Friday. Mrs. Martin Sasse baked some cookies and sent some of them over to her son Herman. Both families partook of the cake and soon afterward all the members became ill and began vomiting. Two may die, but the rest are out of danger.

Wanted to Hang a Murderer.

NEW ORLEANS, La., Nov. 19.—Last night shortly before 11 o'clock Police Officer J. H. Kellar was murdered by a man who gave his name as Bernard Burchhorst, but this is believed to be fictitious. ITALIANS KEEP OUT OF ORIENTAL ROWS

TAKE NO PART IN THE CHINESE RUMPU.

Favor Neither One Nation or the Other in the Present Embroglio—Earthquakes in Sicily and Southern Italy Cause Great Damage—Cardinal Gibbons Waits.

ROME, Nov. 19.—[Special].—Italy will take no part in the Chinese-Japanese embroglio.

ROME, Nov. 19.—The earthquakes in Sicily and Southern Italy caused considerable damage to the telegraph lines and details of the phenomena are coming to hand slowly. It is known, however, that the province of Reggio di Calabria suffered the severest damage by the seismic disturbances. Little damage was done in Reggio, the capital of the province, but there was great loss of life and much damage to property elsewhere in the province. Seventeen communes were involved in the disturbance, the centers of which were in the vicinity of Palmi, twenty-one miles northwest of Reggio, and Bagnara, on the Gulf of Gioia, almost directly opposite Punta del Faro, Sicily. The village of Sao Procopio, near Palmi, was almost entirely destroyed. Here sixty persons were killed. Forty-seven of these met their death in a church to which they had fled for refuge. Their bodies are still in the ruins. At Bagnara seven persons were killed. Eight lost their lives at Mamerlino and San Eufemia, being crushed to death, while many others were injured. The inhabitants of these places are obliged to camp in the open air. Prime Minister Crispi has sent a large sum of money for the relief of the sufferers, and has placed two vessels at the disposal of the prefect of Bagnara.

Cardinal Gibbons Will Wait.

ROME, Nov. 19.—Cardinal Gibbons' departure from the United States has been indefinitely postponed, and it is authoritatively stated that his eminence will remain absent from Rome until after the papal encyclical address to the Catholics of the United States.

MEXICO IS READY FOR WAR

Troops are Being Massed All Along the Guatemalan Border

COMITAN, Mex., Nov. 19.—New troops have arrived and taken a station covering the line. There is the strongest possible feeling here in favor of war with Guatemala. People from this section of Guatemala are most bitter in their complaints against the Guatemalan government, which lately has relieved all the authorities who were from this section and have appointed people from the interior to fill their positions, and an uprising is imminent. An agent of the Guatemalan government is here trying to purchase horses for the cavalry, which is a branch of the service of which Guatemala has none. The Tenth Mexican infantry covers the frontier and, besides the new national guard, has its headquarters here.

VERA CRUZ, Mexico, Nov. 19.—The Nineteenth infantry has embarked on gunboats to go to Tabasco. Two hundred and fifty thousand cartridges have been shipped south within the last few weeks. The Fourth infantry is expected here in a few days to go to Tabasco also.

CITY OF MEXICO, Nov. 19.—The national arms factory here is turning out cartridges as fast as possible. The greatest bustle is noticeable in the war department. This is giving rise to many rumors. It is rumored that Assistant Secretary of War, Gen. Ygnacio Escudero, is going to Vera Cruz within a few days to see about better transportation for troops to the Guatemalan frontier.

MAZATLAN, Nov. 19.—The steamship Jandro is now ready to take on its armament, and it is reported that it will immediately get ready to take 1,000 soldiers to the Guatemalan frontier from Acapulco.

SAN CRISTOBAL DE LAS CARAS, Mex., Nov. 19.—The greatest enthusiasm exists in this state in favor of war. The government has been asked to accept volunteers. Societies have been organized who will tender their service to the state and the federal government expecting to be sent to the front. A number of Guatemalan spies are known to be on the frontier and near the military camps, but so far no attention has been paid to them except to order them away.

WASHINGTON, Nov. 19.—The appointment of Senor de Leon of Guatemala as special envoy to settle the Mexico-Guatemala boundary trouble, which has caused frequent reports of war, is likely to end the difficulty at an early day. The officials of the two governments have been advised of Senor de Leon's appointment, but they expect him to go direct to the City of Mexico and not come here, as press dispatches state. He has wide experience in diplomatic affairs, having been at one time minister of foreign affairs in the Guatemalan cabinet.

THE CZAR AT REST IN THE ROYAL TOMB

FUNERAL CEREMONIES WERE VERY IMPRESSIVE.

Began at 10:30 this Morning and Lasted Until Four this Afternoon When the Remains Were Carried to the Vault by the Emperor and Several Princes.

ST. PETERSBURG, Nov. 19.—[Special].—The czar's funeral today was the most imposing scene of modern times. The ceremonies lasted from 10:30 in the morning to 4 o'clock in the afternoon, at which time the body was carried to the tomb by the emperor and several princes. Following the custom that has prevailed ever since the time of the death of Peter the Great, imperial heralds paraded throughout the city yesterday and announced that the funeral of Czar Alexander would take place to-day in the Cathedral of St. Peter and St. Paul. So great have been the crowds and so intense their desire to get into the cathedral to look for the last time upon the face of the dead ruler that there have been some regrettable scenes of disorder. The police were unable to control the masses, and so violent was the pressure at times that lamp posts and trees were knocked down. Many persons have been badly hurt by the crushing.

SCHEME FOR NATIONAL BANKS

The Idea Figures on Taking the Assets For a Basis

WASHINGTON, Nov. 19.—Secretary Carlisle spent Saturday evening with the President at Woodley and went out there again yesterday, talking over the various suggestions under consideration for the plan of finance reform. It is understood it has been decided that a comprehensive plan will be submitted to congress which shall provide, among other things, for a new basis for national bank circulation, and for preventing the constant presentation of legal tenders for redemption. The assets of the national bank will be, under some conditions, its basis of circulation; and, in some way, it will be required to maintain a large deposit of legal tenders, sufficient in the aggregate of national banks to absorb the greater part of the outstanding legal tenders, which would be represented in circulation by national bank notes. The inspection, redemption and other important features of the national bank system are to remain practically unchanged.

The repeal of the state bank tax will not be recommended.

One of the plans under consideration to secure prompt redemption of bank notes is the establishment of bank redemption agencies, under the control of the treasury, in the leading commercial cities of the country. Redemption would be somewhat more rapid probably than under the existing system. One of the important objects sought by the administration is the termination of the existing system of banking by the government. It desires to see the pressure for gold for export shifted from the treasury to the banks, and prompt redemption of notes in coin at the counters of the banks is considered important to accomplish this result. A compulsory deposit of legal tenders is likely to be recommended for immediate relief.

Another feature of the new plan may be the gradual retirement of the legal tender paper issued during the war and under the Sherman silver act. Several plans have been suggested for securing the retirement of these notes, but none has yet been decided upon. The difficult features of such action is the necessity of redeeming the notes by actual cash raised by taxation.

The executive committee of the American Bimetallic league has called a conference at St. Louis for Nov. 27 at which the present situation will be fully discussed, and the policy to be hereafter pursued by the friends of free coinage of silver be decided upon.

TO BENEFIT THE WEST.

Topics to Be Discussed at the Trans-Mississippi Congress.

ST. LOUIS, Mo., Nov. 19.—Arrange-ments practically have been completed for the trans-Mississippi congress to meet here Nov. 26 to discuss, as the call states, all questions which may effect the interests of the people in the territory lying west of the Mississippi river and which may be the subject of legislation by the United States congress and to express to it through resolutions and otherwise the sentiments of the western people. It also will endeavor to take such steps for the presentation of such resolutions to that body as will command its attention and action. While any such question properly may be brought forward for discussion among those most prominent are: The remonetization of silver, irrigation of arid and other lands, the disposition of Indian and public lands, the Nicaragua canal, a national bankrupt law, the improvement of western rivers and harbors, anti-option legislation, mining laws, and admission of territories to statehood.

Delegates have been appointed from Minnesota, Iowa, Nebraska, Missouri, Arkansas, Texas, Idaho, Montana, Washington, Oregon, California, New Mexico, Oklahoma and South Dakota and the attendance probably will be the largest the congress ever has had, and will include the most prominent men of the territory named.

MANY HOUSES WRECKED.

Boiler Explosion at Elwood Gave the Town a Terrific Shaking Up.

ELWOOD, Ind., Nov. 19.—The boiler explosion here, which resulted in the death of Norman Clarke, engineer at the Elwood Electric Light and Street railway power house, did much more damage to property than was apparent at first. The loss is estimated at \$35,000 to the plant alone, with little insurance, and the loss to private residences will amount to \$5,000. That no more lives were lost is little short of a miracle. The plant will be rebuilt at one of the terminals of the line. President Stout of Cincinnati, who is at the head of the company, hopes to have the street cars and the electric light systems running again by Jan. 15. In the meantime the city is in darkness, as it was lighted from the plant.

Dr. Bashford Talks at Cleveland.

CLEVELAND, Ohio, Nov. 19.—Business was laid aside yesterday by the delegates and officers of the National Woman's Christian Temperance union convention. Many of the visitors spoke in pulpits thrown open to them by the city pastors. President James W. Bashford of Ohio Wesleyan university delivered the annual sermon, which office had heretofore been filled by women. His utterances were preceded by an introduction by Miss Willard, in which she called attention to the innovation. After the sermon a rousing suffrage meeting was held, presided over by Susan B. Anthony and in the evening meetings of the Y's were held in different parts of the city, presided over by secretaries of the organizations from the different states.

Some believe the fire was of incendiary origin, though no motive for such a crime is now apparent.

PORK TO BE PROSCRIBED.

American Hog to Follow Beef in the Exclusion From Germany.

WASHINGTON, Nov. 19.—The United States consul at Stuttgart, Germany, Alfred C. Johnson, is in the city on leave of absence. "It is difficult," he said, "to predict just what effect the new tariff will have on the trade relations of Germany and the United States, but in some lines, notably in cotton and woolen goods, there will be a largely increased export from Germany. The trouble about American meats started in my district, though the restriction became general since my arrival in this country. The first objection to our beef came from the mayor of Heilbrun, who claimed that the people did not want the Chicago product. The butchers of town, however, were of a contrary opinion, for they wrote to me to see if the embargo could not be lifted, and the matter at once became of diplomatic importance. As yet the proscription has not extended to pork, but it is extremely probable that the American hog will ere long suffer the same fate as the American steer in German markets."

RIVER NOT A SLUICE TO RUN OFF FILTH

ROCK COUNTY'S NEW SEWER CAN BE PLUGGED.

Courts Have Held That the Water Cannot Be Polluted to the Extent of Injuring it For Any Ordinary Use—Parallel Case in Indiana Decided.

The building of the new county sewer can be stopped if it pollutes the water of the river so that it makes it impure or essentially unfit for ordinary use. An instance is cited where the Indianapolis Water Company brought an action for an injunction, against the American Straw Board Company in the United States court for Indiana, to restrain the Straw Board Company from polluting the water of White river, by discharging into it certain filth which passed through the factory.

In the opinion rendered by the court in February, 1893, which is reported in the Fifty-third Federal Reporter, 970, the court among other things laid down the following as established principles of law:

"A riparian proprietor upon a non-navigable stream is entitled, in the absence of grant, license or prescription limiting his rights, to have the stream which washes his lands flow, as it is wont by nature to flow, without material diminution or alteration. Every riparian proprietor has the right to insist that the stream shall flow in its lands in the usual quantity and quality, and at its natural place and height. He owes the duty of permitting it to flow off his land to the lower riparian proprietor in its accustomed quantity, quality, place and level.

Cannot Pollute the Waters.

"The proprietor has no property in the flowing water, which is not the subject of riparian ownership; but he may use it for any purpose to which it can be beneficially applied, without materially injury to the rights of others. Any diversion or obstruction of the water which substantially diminishes its volume, or the depositing of any substances in the stream which corrupt or pollute the water to such a degree as to essentially impair its purity, and prevent its use for any reasonable and proper purpose, to which running water is usually applied, is an infringement of the right of such owners of land through which the stream flows. An action for damages may be maintained by a riparian proprietor for the pollution of a stream.

"So a perpetual injunction will be granted to restrain such pollution, especially if it is of a continuous nature even when the plaintiff could only recover nominal damages at law, because of the inconvenience of repeated actions, and the danger of the acquisition of an adverse right to pollute it by its continuous for twenty years. So also a perpetual injunction will be granted to restrain the pollution of a stream where the nature of the injury is such as to render it difficult or impracticable to adequately measure the damages and fully compensate for the wrong."

DR. PALMER CUT HOWE'S LEG OFF Fort Atkinson Man Crippled For Life While Duck Hunting.

Dr. Palmer went to Fort Atkinson and amputated H. L. Howe's right leg, the operation being made necessary to save the man's life. Howe was shooting ducks at Koshkonong creek and an accidental discharge of the gun so shattered the leg that amputation was the only course. It was dressed at first and they thought it could be saved but the main artery of the leg burst, and before the hemorrhage could be stopped he had become very weak from the loss of blood and amputation was the only recourse.

BETTER STAMPS ARE ON THE WAY

Washington Dispatches Say That the Complaints Are Not Just.

Soon we'll be getting good stamps again. Washington dispatches say that the officials of the bureau of printing and engraving think that the complaints of the inferior quality of the new stamps are disproportionate to the grounds for dissatisfaction. Claude M. Johnson, chief of the bureau admits that some of the product of the establishment was not up to the standard, but says:

"Today we are printing as good stamps after three months' experience in the work as the American Bank Note company did after twenty years. There was naturally more or less difficulty in teaching the new workmen all the processes of stamp making so that a part of the product was more or less experimental, but all difficulties have now been overcome."

The freshmen class of the Janesville high school have challenged the sophomore class to a joint debate to be held at the high school, Friday, December 7. The question for discussion is: "Should Foreign Immigration be Restricted?" The freshmen have the negative side and the sophomores the affirmative. The speakers for the freshmen are Mark McNamara, John McElroy, Len Matthews, Miss Alma Golling and Miss Stella Tuckwood; while Miss Nellie Kimball, Miss Lou Couray, John Whiffin, Hue Hemmingway and Len Wilcox will speak for the sophomores. This will probably be a hot debate as there is much rivalry between the two classes.

GEN. RUGER TO GO IN THIS WEEK

Army Men Expect Him At Chicago in a Few Days.

It is not known when Gen. Ruger, who is to succeed Gen. Miles in command of the United States troops at Chicago, will assume his new position. At the army headquarters it was stated yesterday that he is expected before the end of this week. In the meantime Col. R. P. Martin, the adjutant general of the department, will be in command. Gen. Miles left for New York yesterday.

Happy Hours

We were floating in my little boat. Down the shimmering moon-lit river. The oars idly lying at our feet. As we watched the white foam quiver.

Alone together, thank Heaven at last; With hearts too full to speak I forgot the dreary days gone by As I gazed on her pure white cheek.

How I wished I might only press one kiss On the satin skin, then watch the red As it flooded and tinged each feature true. Until all her sweet face it had o'er spread.

All at once she gently asked me why Boat seats were made so very narrow. I looked in her eyes and hope filled my heart. And new life I suddenly seem to borrow.

I said, shall we row ashore and find a spot That is fragrant with crab apple bloom And while away an hour or two. In a place where there is more room?

She assented, I replaced the oars, We went with the silent stream. Soon landed the boat at the foot of a tree, And together we climbed the bank serene.

The silver moon shone on her face, And lit up her golden hair. One would have had to look for many a day To have found a happier pair.

But I noticed after awhile we two, As her hand still in mine remained Were occupying a much smaller space Than the seat in the boat contained.

STEVENS POINT IS A VERY BAD CITY

PAPER GIVES REV. REQUA POINTS ON A SERMON.

The Former Janesville Pastor's Theme Was "If Christ Came to Stevens Point" and the Newspaper Man's Advice Would Indicate that the Editor Was Posted.

Rev. W. F. Requa, the former pastor of Court Street M. E. church, preached at Stevens Point yesterday, his subject being "If Christ Came to Stevens Point." Previous to the sermon the Stevens Point Press published the following article, which would indicate that the editor of that paper had the moral failings of the community well in hand.

"The Rev. Eugene W. F. Requa will speak at St. Paul's M. E. church Sunday evening, taking for his subject, 'If Christ Came to Stevens Point.' Mr. Requa is a stranger in this city and he might appreciate a few paragraphs of advice. If Christ came to Stevens Point he could not but admire the quietude of the Sabbath. When he saw the bill boards where dresses have been pasted over the female figures, he would heartily approve of Mayor Clark's administration. He would find Col. Mose Puariea and ask him if he had been running for office. He would go to Mike Cassidy and ask him how the story started that Joseph Springer was to be Puariea's deputy. He would ask John H. Brennan why he is a democrat.

"He would demand of Rob Rood how big a package of 'green goods' he brought back from New York. He would look back in the Century dictionary for a definition of the word 'chippie' as it is used in Clark street parlance. He would confer with the Episcopal choir on rabbit hunting as a Sunday pastime. He would approve of the marriage of John Martini and Miss Gross as following out the biblical teaching that it is not good for man to be alone. He would criticize the ushers at John Martini's wedding for not going home sooner. He would ask Frank Bosworth and Ed. Stumpf to reduce the price of seats for the Calhoun opera company so as to let in the poor people.

"He would ask Ed. Glennon to refrain from writing democratic editorials for at least two years. He would go before the common council and demand that the public square be cleaned up once every year. He would plead with Louis Wiesner to try and be honest in a horse trade. He would present a copy of the new testament to Bob Finch with instructions to read a chapter every day. He would advise Brad Wheelock to advertise his chicken pie. There are a good many things for him to approve and some few to condemn. On the whole he would find Stevens Point as good a town as the average."

MRS. CADWALLADER IS AT MADISON

Will Not Follow Her Husband to Milwaukee—Hopes For a Pardon.

Mrs. A. A. Cadwallader, wife of the imprisoned ex-banker, has decided not to follow her husband to Milwaukee, as she finds that she will not be allowed to visit him there in his confinement as she was permitted to do in the county jail. She will remain in Madison and continue dressmaking for the support of her family, hoping to have her husband pardoned out.

The fact that Cadwallader had made a plea of guilty in the United States court was a surprise to his attorney, S. N. Dickenson, and the bank officials at Superior, who had expected that the prisoner would continue the desperate fight he had made for liberty. Judge Dickenson states that the plea was entered without his receiving the slightest intimation of his client's intention.

TRAVELERS TALKED OF THE GAY AND SAD

ANNUAL BANQUET PLANNED UNDER A SHADOW.

Death of William Thomas Johnson, to Whose Memory a Tribute is Paid, Tinged Their Deliberations Concerning the Annual Jollification With Grief—December 26 the Date.

Future pleasure and past affliction were the two most important questions that came before the Janesville Commercial Travelers Association yesterday.

The arrangements for their annual banquet are seldom made in the shadow of a sorrow, but this time they were. William Thomas Johnson, one of the best known and respected members of the order had but lately been called home by the Supreme Ruler, and the following resolutions were adopted as the feeling of the association:

Resolved, that in the death of W. T. Johnson, the association loses one of its most highly respected members, and the city one of its most worthy citizens.

Resolved that we recognize in the character of our departed brother, many traits of worth, that merit emulation, his honesty, and integrity, his fidelity and thoughtfulness will live as pleasant memories, and be cherished by his many friends.

Resolved that we extend to his wife and family our heartfelt sympathy in their bereavement, with the assurance that the association has sustained a loss, which it keenly recognizes.

The resolutions were ordered spread upon the secretary's book and published in the daily papers.

It was decided to hold the annual banquet at the Park Hotel on Wednesday evening, Dec. 26, and to limit the invitations to members in good standing.

"LET IT ANSWER ITSELF."

A democratic editor in Kentucky takes Henry Watterson of the Louisville Courier Journal, to task, for his scathing criticisms on the late defeat of the democratic party, and suggests that if the Watterson policy had been adopted, there would have been still fewer democrats abroad in the land. To this Mr. Watterson replies very pertinently as follows:

"Is this a true statement, or is it a false statement? Let seven months of confusion and tergiversation answer. Let the tortuous experience the bill had in the house—the house of its friends—answer. Let the scandalous proceedings which marked its career in the senate answer. Let Mr. Cleveland's letters to Mr. Wilson and Mr. Catchings answer. Let the act as finally passed, becoming a law without the president's signature, answer. Could anyone be, by any possibility, worse? We lost our character and did not save our bacon, and now we have been wiped off the face of the earth, and yet dear Mr. Woodson says: 'If a bill on the Watterson idea had passed *** there would be fewer survivors.' Good Lord! fewer!—was it fewer, you said? How fewer? Which fewer? What fewer? Are there not few enough as a matter of fact without putting ourselves to the trouble of speculating about what fewer still their might have been?"

IMPROVEMENT IN THE SOUTH.

The Manufacturers' Record says a substantial forward movement all through the south is noticeable the last week. Improved bank clearings and improved railroad earnings are points reflecting the uniform and general character of the progress towards better times. The passing of the elections removes a feeling of uncertainty consequent to such periods, and new enterprises are being launched with greater confidence. A feature of the week in the south is the activity in the building of electrical railways.

This is perfectly natural, and is but the beginning of better days for the south. New enterprises of various kinds will seek investment in this long neglected yet fertile section of the country, and in less than twelve months an impetus born of new ambition, will characterize no longer the solid, but now the sensible, south.

Strike Cost Fruit Men \$1,000,000.

SAN FRANCISCO, Cal., Nov. 19.—The fourth biennial report of the state board of horticulture states that owing to the railroad strike California fruit growers lost over \$1,000,000. Had it not been for the railroad tie up this season would have been the most profitable for horticulturists in the history of the state.

Searched for Smuggled Opium in Vain.

California's Big Silver Output.

SAN FRANCISCO, Cal., Nov. 19.—The state mineralogist's report shows that during 1893 California more than doubled the silver output of the previous years, producing \$537,155, as against \$262,550 in 1892. The increase was due almost entirely to the production of San Bernardino county mines. The gold output was practically the same in both years.

Burning Cotton-Gins.

GREENVILLE, Texas, Nov. 19.—Five more cotton-gins located at different points in this county have been burned with a loss of \$25,000, making the total burned to date eleven gins. There seems to be a concerted movement on the part of a gang of burners to destroy every gin in the county. If the incendiaries are caught they will be lynched.

It is the pretty Christian legend that the aspen quivers with shame because from its wood the cross was made. Observers of nature have discovered, however, that the quivering of the aspen leaves is due to the fact that the leaf stalk is flat on the sides and so thin about the middle that the slightest breath of wind sets all the leaves a-wagging horizontally.

A correspondent who has been visiting the St. Bernard hospice, says that the famous breed of St. Bernard dogs has become almost useless for purposes for which they were formerly used, their sense of smell having become greatly weakened from deterioration through too much interbreeding.

Cantwell Sent to an Asylum.

SPRINGFIELD, Ohio, Nov. 19.—William Cantwell of this city has just been taken to an insane asylum at Daleville. He took possession of the church at prayer meeting, jumped on top of the altar and preached, throwing articles right and left. The women fled terror-stricken, several fainting. The lights were turned out and Cantwell emerged from the church and was caught and bound.

CURES OTHERS

MRS. HARRY TAPPAN, of Remond, Neb., writes: "For about two years I was a constant sufferer from diseases peculiar to my sex. I had to be carried from my bed, had horrible dreams, sinking sensations, was very nervous and had little or no appetite. In short, my whole body was racked with pain. I had frequent attacks of hysteria, and was completely discouraged for I found no medicine did me any good. At last I determined to try Dr. Pierce's Favorite Prescription. I had taken but two bottles before I felt so much better! I took eleven bottles. To-day, I am well. I have never felt the least trace of my old complaint in the last six years. We use the 'Golden Medical Discovery' whenever we need a blood-purifier. With its use, eruptions of all kinds vanish and the skin is rendered clear and soft, almost as an infant's." Sold everywhere.

MISS WISCH LOVED AN INDIANA MAN.

SO SHE RAN AWAY FROM HOME
TO MARRY HIM.

Her Parents Were Not Quite Satisfied
to Have Their Daughter Marry a
Trotting Horse Groom However,
So She Was Intercepted at Chicago
By Police.

Love which her parents could not sanction caused Miss Annie Wisch to leave her happy Janesville home where she had all the comforts that one could desire, Saturday, with a ticket to Indianapolis in her pocket, where she expected to meet and marry "Fred Campbell," whose right name is Frank Chamberlain. She was intercepted in Chicago and turned over to her uncle, Herman F. Wisch, who cared for her until her parents could come for her.

Miss Wisch met Chamberlain here last fall. He was a groom in the employ of Ab Fullerger, The Freeport horseman and took care of Fullerger's best horse, Nina Medium. He was a nice looking young fellow, even if he did shoot craps once in a while or give some stranger a "wrong tip" on the winner of some race. Miss Wisch took quite a fancy to him, and although he was not the man whom her kind and indulgent parents would select for a son-in-law, Miss Wisch carried on a clandestine correspondence with him that finally resulted in her sudden departure.

Boy Bought Her a Ticket.
In order that no one should suspect her she had a boy buy her a ticket to Indianapolis and took the train for Chicago. A new grip that she had bought just before starting held all the worldly goods that she took with her. Before leaving she had confided in a friend what her plans were and as soon as the latter found Miss Wisch meant what she said, her parents were informed. Chief Acheson was the next actor in the drama his part of it consisting of sending a dispatch to the Chicago police to arrest her when she stepped from the train. The O'Malley catchers were on hand when the Janesville girl stepped onto the platform of the Chicago & Northwestern depot and her journey was at an end.

Herman F. Wisch had also been notified and he at once took the young lady in charge and kept her until her parents came for her. Miss Wisch's escapade has been the cause of her acquiring a good deal of notoriety. All the Chicago papers printed the story of her running away and the Milwaukee papers also devoted some space to it. It is expected that she will arrive home tomorrow evening and the lesson received will doubtless be a valuable one.

A Reputable Optician.

CRABBED STEWART'S \$125 AND RAN.
Man Who Was Coming Up Here Robbed in Chicago.

Eugene L. Stewart did not come up from Chicago to Janesville the other night, although he had intended to do so. Stewart arrived in Chicago Friday night on his way to Janesville. At the Northwestern depot Stewart met a stranger who told him that his train had gone and proposed that he go with him. They entered Joseph Higgins' saloon, No. 139 Erie street, and drank. Stewart's friend began shaking dice. Stewart was asked to loan him \$5. He drew out \$7.25 and his "friend" snatched it and ran. Higgins was arrested and held for trial November 27. All of which led the Chicago Tribune to head the story "Learns What a Confidence Man Is Like."

FRED HITZMAN MAY PLEAD GUILTY.
Evidence Against the Center Man Said To Be Strong.

Fred Hitzman, the man arrested by Officer Cochran on Saturday on charge of marrying his niece, was arraigned in municipal court this morning and waived the preliminary examination, his trial being set for Monday, November 26, at 10 a. m. Hitzman will undoubtedly enter a plea of guilty, knowing that the evidence against him is more than sufficient to establish his guilt, and in order to obtain clemency may he may save the county the expense of a trial.

HUGH MILLER HAS CLEARED OUT
Case Against Him Was Held Open To Permit Him to Leave.

The case of the state against Hugh Miller was called this morning in the municipal court, but Hugh did not answer. Miller was arrested last week on charge of being a common drunkard. He was adjudged guilty, but the court held his case open for three days to give the defendant an opportunity to get out of town. The fact that he did not appear this morning led some of the police officers to entertain the idea that Miller had actually disappeared.

Pack and Ship at Once.
That's the way the message went over the wires to Chippewa Falls. It was sent by Frank H. Baack, one of our oldest and best known clothing merchants. Mr. Baack has as handsome a stock of fine clothing and gents' furnishing goods in Chippewa Falls as one would care to see. Every article is new and valuable. He bought it at a great reduction because the fellow had to sell. Now he proposes to give Janesville and Rock county a chance to buy it at about 50 cents on the dollar. Mr. Baack has rented the store room occupied by the Holloway & Johnson stock, which will be entirely cleaned out of there in ten days, so that about the 27th inst., you can go there and get fine clothing cheaper than you ever heard of it. It is Mr. Baack's intention to close this stock out in thirty days, and as it is a large one the prices will have to be very much below cost to hurry it up. It will pay you one and all to wait for this sale as everybody knows Mr. Baack to be reliable and when he tells you that he will sell you a handsome suit away below wholesale price, you can rest assured that it is true. Watch the Midway. The great closing out sale of clothing will commence about November 27.

Lowell of Janesville.
There are Lowells of the west and Lowells of the east, north and south, but there is only one Lowell of Janesville and that is E. W. Lowell, the hardware hustler and slayer of high prices. At the present time E. W. Lowell is closing out the Holloway & Johnson bankrupt stock of hardware and the way he is attracting attention is wonderful. The country people for a radius of twenty-five miles are coming to Janesville to purchase some of that hardware. The ladies fell over each other today trying to get those Western washing machines for \$2.50 each and those wringers for \$1.60 each. It is a pleasure to stand across the street and watch the people crowd inside. They are just like hungry wolves after a piece of meat, but this pleasure cannot last long, as Frank Baack has rented the store room and will take possession in ten days. So the goods must go.

COUNCIL WILL HAVE PLENTY OF WORK

MEETING HAS NOT BEEN HELD
FOR FOUR WEEKS.

Change in the Street Railway Franchise in Regard to Repairs Will Come Up as Will also the Matter of the Suit Against the Water Company.

The meeting of the council this evening, will be the first held in four weeks, consequently considerable business has accumulated, principally of a routine nature, much of which will easily disposed of. There are one or two questions which are now filed for presentation tonight, which may take some time to dispose of. An ordinance amending the street railway franchise, will be presented, seeking to relieve the railway company of the expense of keeping the roadway between the rails in repair, or of paving between its rails when paving is ordered. A proposition is also on foot to induce the common council to reconsider its action in relation to the proceeding against the Janesville Water Company.

Discussions will undoubtedly follow the introductions of these questions. It is also intimated that the council will also be asked to take some steps in relation to the sewers emptying into Rock river, whether to abate the same or to increase the number, is yet to be developed. Forest park residents will present a petition for the location of a fire alarm box at the junction of Jackson street with Garfield avenue. A number of petitions for additional electric lights have also been prepared. The season for working city streets having passed, it is not expected that many orders for improving the streets will be presented, although there are a number of sidewalks which need attention.

BAD EDGERTON MEN IN JAIL HERE

"Tut" Williams Whipped His Mother and E. Himelbeck Drank Too Much

"Tut" Williams, one of the tough characters of Edgerton, was registered at the Rock county jail today for ninety days. Williams was convicted on charge of drunkenness, and brutally maltreating his mother.

Emil Himelbeck, another denizen of Edgerton, who was convicted of being drunk and disorderly was registered at the same place for five days.

Wasn't She Mad?

We followed them and heard her say: "You just come in with me and I'll show you where to buy watches and jewelry. You tried to make me think that ring you gave me was solid gold, when you know it was cheap wash goods with not enough gold in it to keep it over night. You just walk in here with me and let me introduce you to A. F. Hall & Co., the reliable jewelers. They don't sell trash, and good goods there won't cost as much as poor stuff will somewhere else."

A Kicker Fails Behind

The fellow who complains to his neighbor that trade is not as good as it should be, is getting pushed back by his energetic competitor, and it is natural that he should. Business that is not worth an effort is not worth having, and a person who cannot stay in the front ranks should blame no one but himself when he wakes up and finds his competitor enjoying all the business.

Very Pretty, Indeed

Have you noticed the great number of fine Irish Frieze ulsters on the street? You did not see them before we made an Frieze ulster sale for \$10 each. All those you see came from our house. We have some more. T. J. Ziegler.

HEALTH, BEAUTY AND FASHION.

Physical Culture Advocates Deplore the Possible Return of Heavy Skirts.

The aim of fashion being beauty as well as variety and novelty, fashion writers are beginning to advise in regard to health as well as in regard to the wardrobe, appreciating the fact that health is a requisite of beauty. Dyspepsia is at present the text of many sermons to women. We are told that worry is a curse and source of untold evils. It seems the face with lines and furrows and has a most depressing effect upon that hypersensitive organ, the stomach, which at such times becomes a most unwilling and laggard servant. Indeed it is safe to say that unless encouraged by a cheerful temper and bright or

CLOTH GOWN.

at least hopeful thoughts the stomach will play truant or sulk and do no work which it can shirk. The worry and anxiety which depress the brain produce simultaneously a semiparalysis of the nerves of the stomach, gastric juices will not flow, and, presto, there is indigestion! But while everybody admits the folly of worrying about trifles the question is yet unanswered as to how worry is to be avoided in connection with many anxieties of life that are not trifles. While this remains unsettled dyspepsia will still be rampant.

Another menace to health is found in heavy gowns. The bodice is of small importance, as its weight is evenly distributed, but ample skirts, lined, draped and heavily trimmed, are certain to have a bad effect on the complexion, spirits and general health. It is to be hoped that as skirts grow more elaborate they will become scarier. The old fashioned hoopskirt had certain advantages, after all. It supported the gown and made walking easy.

Green and brown is again a fashionable combination, as it was several years ago. The gown shown in the illustration is these two colors. The material is cloth of beaver brown. The skirt is laid in large, loose box pleats and has a band of green passementerie around the foot. The back of the gown is in princess form. Two plaits form bretelles at the front and back of the bodice, the plaits being ornamented with points of passementerie. A large bow of green ribbon is placed at the waist in front, and the draped collar is also made of ribbon. The sleeves are of striped beaver and green velvet.

JUDIC CHOLLET.

MATERIALS AND COLORINGS.

New Cloths Show Rough Surfaces and Black Designs on Colors.

As is usual at this season, there is an embarrassment of new materials of all kinds suitable for autumn and winter wear. Caracule cloth is one of the leading novelties. Corduroy cloth is very durable. The new friezes in dark shades have tiny

VISITING TOILET.

flat loops of a lighter shade, others having little raised black patterns on colored grounds.

Soft, curly surfaced boucle cloths in all the latest shades of color make warm and stylish winter gowns. Most of the new cloths show black designs in bold relief on color, green, red, brown and blue grounds. One called the "Normandy" much resembles chenille in effect. Those cloths interwoven in two colors in imitation of basket work are popular, as are the diagonal "Harris" cloths, which always appear to keep in fashion. In moires the most recent introductions are the grain de poudre and the chameleon, in which, as the name implies, there are changes of color. The watering is very bold and handsome, brown on petunia, light pink on blue, pervenche on deeper purple and green on gold being good examples.

Combination gowns, consisting of two or more materials or tints, are eminently fashionable. The one illustrated is composed of green faille of the shade known as sauterelle, or grasshopper, and mauve cloth. The cloth skirt falls in large plaits. It forms a tablier in front, framed on each side by a fold of faille and a band of sable. Pocket revers are placed on each hip, fastened by silver buttons. The round corsage is of cloth, the plastron being embroidered with silver and the embroidery continuing on the tablier of the skirt. Bretelles of sable faille adorn the front and back of the bodice and extend down the full length of the back of the skirt. Revers similar to those on the skirt decorate the front of each shoulder. The cloth sleeves are full above the elbow, but tight below, where they are trimmed by a lengthwise band of faille and sable.

ODD REMNANTS.

The best bicycles in Paris cost only \$15. In this country a wheel costs as much as a piano.

In 1700 Great Britain's sugar consumption was only 10,000 tons, in 1800 it had risen to 150,000 tons and in 1885 it was nearly 1,000,000 tons.

A Harrodsburg, Ky., man, joined a bill posters' association by mail to get \$15 a day. He sent \$1 membership fee and received a certificate of membership which authorizes him to receive \$15 a day if any other fool will pay it.

A New Jersey judge has decided that a man is entitled to damages from the owner of a dog which bites him the second time; but not the first, unless the owner knew of the first bite, and afterward permitted the animal to run loose.

Tennessee has purchased 9,000 acres of coal land on Bushy mountain, near Harriman, for \$80,000, and will erect a large number of stockades. Convicts who have hitherto been leased out to coal operators will be worked there and be employed by the state in digging coal.

Goldfish inhabit most of the waters of Central park, New York, especially the Lotos pond, and live through the winter, but they thrive vastly better in water that is always far above the freezing point, and in such waters have been known to increase with astonishing rapidity.

Mr. Binks suddenly awakened—Who—who's there? Burglar, with pistol—Don't yeh dare move or I'll— Mrs. Binks—For mercy's sake don't shoot! You'll wake the baby!

Wife—The doctor says I will gain ten or fifteen pounds if I go away for a month. Can't I go, dear? Husband—Not much! Why, not one of your gowns would fit you then.

Dora—Men may not think so, but nowadays there are a great many girls who have no intention of ever marrying. George—Oh, I know it. I've proposed to a dozen of them.

Looking up suddenly, she beheld the bearded face of a man, with a knife gleaming between his teeth. Then she fainted. It was no wonder, for she had been carefully reared and had never seen anyone eat pie in that manner before.

Bright Boy—The paper says there's a doctor in the city who makes long noses shorter, big ears smaller, and I don't know what all. Father—Well? Bright Boy—I guess you'd better send me to him to have my legs shortened, if you can't afford to buy me a larger bicycle.
